RE: Docket # T-00000F-99-0641
(Area Code Changes)

My name is Doug Brotherton, President, Yell Concrete Construction, Inc. My wife and I are in the process of purchasing this company and have just received all of our stationary, business cards, signs and advertising with the "520" area code on them. I don't need to tell what kind of effect that would have on our business if our area code were to change. While that expense might seem minor to some, it is not to us because we are just starting out and funds are limited. We are in favor of the "overlay" because then we could keep our area code as it is. In fact it would appear that as fast as technology is expanding this situation will arise again in the near future and we would all once again be dealing with it. If the "overlay" solution is used, then this would not be an issue in the future.

Please take our concerns into consideration when making your decision.

Respectfully,

Doug Brotherton
